County MFIP Biennial Service Agreement

Page 2 of 18

A. Needs Statement

1. Identify challenges in financial assistance services that are prohibiting you from properly serving MFIP/DWP families in your community.

Some challenges identified are:

- -Medical services, this includes access to dental services. Access to these services are a barrier for Mille Lacs County residents.
- -Transportation also continues to be a barrier for our participants, this includes access to personal and public transportation.
- -Licensed daycare providers creates another barrier to properly serve our participants. Many daycare providers are at compacity and very few offer non-traditional daycare hours. This makes it extremely difficult for 2nd and 3rd shift participants to have proper care for their children.

9417 characters remaining

2. Identify challenges in employment services that are prohibiting you from properly serving MFIP/DWP families in your community.

guess if they are job-ready or even want to return to the workforce. And workers with young children need to stay home to care for kids due to limited childcare and hybrid schooling. The Peacetime Emergency and the Governor's Executive Orders led to the commissioner temporarily ordering that MFIP participants could not be sanctioned for failing to attend overview and meetings, submit paperwork, or comply with other specific requirements. Although the waivers were necessary and understood by CMJTS staff, they ultimately hurt program participation and client engagement. With the distribution of vaccines, the return to in-person services, and peacetime emergency waivers ending, employment services anticipate much greater participation in job search, training, and other work-related activities.

Serving the "hard to serve" requires increased staff time spent administering staff-assisted assessments, job search coaching, individualized plan development, and making referrals to community-based organizations for those needing additional resources to address challenges. For example, caseloads in the county are manageable, but the more significant needs of the participants served do require more intensive one-on-one time. And even though MFIP and DWP are intended to focus on work, in reality, the program provides little funds to help participants prepare for and obtain good jobs. Instead, employment specialists often focus on documenting and measuring participation in a limited number of allowed and countable activities.

Additionally, local medical professionals do not fully understand MFIP Employment Services and how providers can support, and help enrolled participants move forward in their self-sufficiency goals. Medical professionals will often provide medical opinion forms recommending zero hours of participation, and this is not necessarily in sync with the strengths-based, solution-focused approach CMJTS employment specialists would prefer to see.

7466 characters remaining

3. Identify the strengths in your community that you are most proud of that benefit MFIP/DWP families.

From the beginning of the enrollment process, CMJTS Employment Specialists (ES) believe in an individualized approach to serving program participants. The ES provides support for participants and guides individuals through difficult times, helping maintain the positive momentum that will result in eventual self-sufficiency. By blending and braiding many funding streams like WIOA Adult, Opioids the Minnesota Initiative (OMNI), Women's Economic Stability Act, and Pathways to Prosperity to serve the entire family, CMJTS improves participant and family outcomes. In addition, co-enrolling participants into programs increase the opportunity for MFIP and DWP participants to benefit from training that leads to careers that show strong demand for workers and pay self-sufficient wages.

CMJTS is a Proud Partner of CareerForce, and we have several locations across central Minnesota to serve our participants' job search needs. For those still resistant to meet in person, the ES accommodates their needs via virtual meetings, over the phone, and through technology.

The CMJTS ES has a strong knowledge of local community resources that may be particularly important for sustaining program success. If a participant's current circumstances indicate the need for assistance, the ES will discuss support services. A referral is made to community resources when the customer cannot meet some or all of their needs alone.

C. Measures

Performance Measures

Millo Lace County was "within"

1. Performance-based funding is determined by a service area's annualized Self-Support Index value. Review the information and report links in this section to see the effect of performance on funding and reporting, based on Statute 2563.626, subdivision 7.

Each year a bonus to a service area's Consolidated Fund allocation will be based on its performance on the Self-Support Index in the previous April to March year.

The three-year Self-Support Index (S-SI): This measure starts with all adults receiving MFIP or DWP cash assistance in a quarter and tracks what percentage of them, three years later, are no longer receiving family cash assistance or are working an average of 30 hours a week if still receiving cash assistance. Those who left MFIP after reaching 60 counted months and those who left due to 100 percent sanction are only counted as a success if they worked an average of 30 hours per week in their last month of eligibility or if they began receiving Supplemental Security Income (SSI) after family cash assistance ended. To provide fair comparisons across service areas, DHS calculates a "Range of Expected Performance" for the S-SI that is based on local caseload characteristics and economic conditions. The service area's Self-Support Index value is whether the service area was above, within, or below its expected Range.

The S-SI and Range are annualized for the four quarters in the April through March year ending in the reporting year before the funding year. See the annualized report on the MFIP Reports page on the DHS website for 2021 https://edocs.dhs.state.mn.us/lfserver/Public/ DHS-4651H-ENG. A service area with an annualized S-SI "above" its customized Range of Expected Performance for 2021 will receive a 2.5 percent bonus added to its Consolidated Fund allocation for calendar year 2022.

Minnesota Family Investment Program 2021 Annualized Self-Support Index (PDF)

If your service area is receiving a bonus,	congratulations! Please sha	re a success strategy here:
--	-----------------------------	-----------------------------

Fille Lacs County was within	
	//
	9968 characters remaining

If your service area performed "above" or "within," you can go to item 2.

If your service area performed "below" for two consecutive years, you will have to negotiate a multi-year improvement plan with the commissioner. If no improvement is shown by the end of the multiyear plan, the next year's allocation must be decreased by 2.5 percent, to remain in effect until the service area performs within or above its Range of Expected Performance.

County MFIP Biennial Service Agreement

Page 9 of 18

C. Measures (continued)

Racial/Ethnic Disparities

2. A racial/ethnic disparity is defined as a one-year Self Support Index that is five or more percentage points lower for a non-white racial/ethnic group than for the white group of MFIP/DWP-eligible adults in the county or consortium. The report "The Annual Summaries for counties of the Self Support and Work Participation performance measures" https://edocs.dhs.state.mn.us/lfserver/Public/DHS-4214AG-ENG on the MFIP Reports page includes a list of service areas that have a racial/ethnic disparity requiring action. (If your county has a disparity but data are missing for quarters with cell size too small to report, contact benjamin.jaques-leslie@state.mn.us to get the unpublished counts and percentage qaps.)

MFIP Performance Measures by Racial/Ethnic or Immigrant Group, and by County or Tribal Provider July - September 2020 (PDF)

If your county or consortium is not in the list, skip the following question.

What strategies and action steps for each of the groups with disparities do you plan for the coming biennium to reduce these disparities?

CMJTS continues to embrace the state's mission to serve higher percentages of populations experiencing disparities in education and employment and face multiple employment barriers. Furthermore, CMJTS is committed to continued outreach to priority populations outlined in the Local Unified Plan of our 11-county service area, including Mille Lacs County.

CMJTS Employment Services will take steps to address our population's economic difficulties and, most importantly, to help ensure the people hardest hit by the pandemic, our BIPOC communities, have access to the resources available through MFIP and DWP services. The local workforce system faces some complex challenges in addressing inequities to employment and education for targeted populations. Strategies will include targeted outreach and engagement, increased staff knowledge, and specific program development for those populations experiencing disparities, disabilities, offenders, new Americans, older workers, and veterans. Strategies include:

- DEED offers frequent diversity and inclusion sessions for all managers and staff.
- CMJTS leadership and all staff have received training on implicit biases and inclusive behaviors and communication.
- All CareerForce partners actively seek out diverse communities in recruitment for job vacancies.
- CMJTS completes an annual affirmative action plan and meets the requested annual reports back to this plan.
- Annually, the local board submits a letter from the CEO reaffirming our commitment to affirmative action.

For CMJTS to reduce these disparities, employment services will participate in targeted outreach and subsequent co-enrollment into CMJTS employment and training programs. Program goals will including using a training curriculum specific to low-skilled English speakers and sharing best practices for workplace accommodations for new immigrant employees. Economic disparities will be reduced as participants gain work skills, earn workplace credentials, and obtain employment or further education within in-demand occupations.

County MFIP Biennial Service Agreement Page 11 of 18 E. Collaboration and Communication with Others 1. How many employment services front-line staff are employed in your county or consortium? How many employment services front-line staff in your county or consortium have MAXIS access? How many managers/supervisors have MAXIS access? Describe the process your service area uses to identify and resolve discrepancies between MAXIS and WF1 data in areas such as Family Stabilization Services coding, employment/hours, sanction status, etc. Written status updates and verbal communication between the county eligibility workers, employment specialists, and direct supervisors of both staff remain frequent. The ES has monthly preliminary data meetings called numbers meetings with the Financial Assistance Supervisor and with MFIP workers to discuss cases one-on-one, including any discrepancies between MAXIS and WF1. During the preliminary data meeting, staff works together to verify MAXIS coding and WF1 activity hours and check for differences between the two systems. The FSS mismatch report is also reviewed. MAXIS data and WF1 work hours are compared for each customer on the preliminary report. Other factors and information is used as is found helpful in determining and reaching participation hours. MAXIS and WF1 data validation is further enhanced by frequent interactions between team members throughout the month, made easy through the proximity of CMJTS ES staff and the Mille Lacs County Community and Veterans Services building/offices. Additionally, it is shared with the other if the EW or ES receives documentation of participation hours, such as paystubs. ES will place all job search and readiness documentation, unpaid employment, education and training, and other activity hours into WF1 weekly, biweekly, or monthly as required. 6685 characters remaining

Addendum for Unpaid Work Experience Activities

If your county is providing unpaid work experience activities for MFIP participants and you don't already have an Injury Protection Plan (IPP) in place, please click on eDocs to find any IPP forms that may be needed. Email the completed form to tria.chang@state.mn.us.

Provider Choice

Does your county:

- Have at least two employment and training services providers. Go to Section H.
- Have a CareerForce center that provides multiple employment and training services, offers multiple services options under a collaborative effort and can document that participants have choice among employment and training services designed to meet specialized needs. Go to Section H.
- Intend to submit a financial hardship request.

County MFIP Biennial Service Agreement	Page 15 of 18
G. Other (continued)	

Financial Hardship Request

FINANCIAL HARDSHIP - Exception to Choice of Employment Service Providers Requirement

work	Provisions require counties to make a choice of at least two employment service providers available to participants unless a Aforce center is being utilized (Minnesota Statutes, section 256J.50, subdivision 8). Counties may request an exception if meeting requirement results in a financial hardship (Minnesota Statutes, section 256J.50, subdivision 9).
amo	ancial hardship is defined as a county's inability to provide the minimum level of service for all programs if a disproportionate unt of the MFIP consolidated fund must be used to cover the costs of purchasing employment services from two providers or the of contracting with a workforce center.
To re	equest approval of a financial hardship exception from the choice of provider requirement, please provide the following information.
1.	If the county had a choice of providers in calendar year 2019, describe: • factors that have changed which indicate a financial hardship • why the hardship is expected to persist in the near future and • the magnitude of the hardship, which makes limiting delivery of employment services the best financial option for the county.
	2000 characters remaining
	2000 Characters remaining
	Summarize options explored by the county, including use of other partners in a workforce center or other community agencies, such as a Community Action Program or a technical college. The summary should also include: • major factors which prevent the county from utilizing these options and include a cost analysis of each option considered; and • the process used to determine the cost of other options (RFP or other county process).
	2000 characters remaining
	If the county proposes to directly deliver MFIP employment services, provide a budget and staffing plan that clearly indicates consolidated funds will not be used to supplant county funds. The description should include information about what steps will be taken to ensure that county staff have the experience and skills to deliver employment services.
	2000 characters remaining

Financial Hardship requests will be reviewed by The Department of Human Services (DHS) and the Department of Employment and Economic (DEED) leadership. DHS and DEED will also review the amount budgeted by the county for employment and training during calendar year 2021 and use this amount as a guide to determine whether the amount budgeted by the county for calendar year 2022 is reasonable.

If a financial hardship is approved, DHS and DEED will closely monitor county programs to ensure outcomes are achieved and services are being delivered consistent with state law. For additional info or if you have questions please email Pamela McCauley.

H. Budget

Click on the link below to review your service area's 2020 MFIP allocation and Federal Funding Sources:

MFIP Consolidated Fund (PDF)

In the budget table, indicate the amount and percentage for each item listed for the budget line items for calendar years 2022-2023. Also note:

- Refer to the 2022-23 Minnesota Family Investment Program (MFIP) Biennial Service Agreement (BSA) Guidelines Bulletin section, "Allowable Services under MFIP Consolidated Fund."
- Total percent must equal 100.
- MFIP administration is capped at 7.5 percent unless the county is approved for an administrative cap waiver. To apply for the administrative cap waiver, respond to the questions in Section G under Administrative Cap Waiver.
- The percentage of Employment Services DWP budget should be significantly less than, the Employment Services MFIP budget.
- Income maintenance administration is reasonable in comparison to the whole budget.
- Ensure the Emergency Assistance/Crisis Services plan is included if funds are allocated.
- If "other" is used, briefly state or describe the line item. "Other" expenditures include any costs that are not related to administering MFIP, DWP or Emergency program services or atypical costs. All services must be an allowable service under the MFIP Consolidated Fund.
- Email Brandon Riley at brandon.riley@state.mn.us, if you need assistance or have questions with the budget section.

2022 Budget

Budgeted Amount	Percent	Line Items		
40,500.00	15.42%	Employment Services (DWP)
